Ron Smith is the Project Manager of Cole Farms, which is Parcel 350 in Area C. Cole Farms is owned by Miller Holdings, Inc., and is being master planned by Omega Management Services for Miller Holdings. Eleven Mile Corner Road runs along the western boundary of Cole Farms. Mr. Smith will describe general characteristics of the property and the current state of development plans and activities. Mr. Smith's testimony may be aided by a demonstrative exhibit that describes the master plan for Cole Farms and other documents regarding the status of that development. Mr. Smith will also describe why the alternate north-south route just east of Eleven Mile Corner Road is harmful to this development.

Mr. Walther will testify as an expert witness on behalf of Miller Holdings, Inc. Mr. Walther is an electrical engineer who has a great deal of experience and expertise in power line siting decisions. The principal focus of his testimony will address reliability concerns related to the double, non-perpendicular crossings of 230kv lines and the 190 foot tower that are features of the alternate route just east of Eleven Mile Corner Road. Mr. Walther will also discuss the potential noise and interference issues precipitated by the 500kv Transmission Line.

To be supplemented.

DATED this 7th day of February, 2005.
